# The Challenge

Chaos Control is an action game consisting of interactive sequencis of computerised images, each one preceded by a spectacular sequence in full screen video. The video sequences namate the plot of the story and explain the onal of your missions.

In the year 2050, long after having travelled beyond the solar system. Pieneler 10 was still continuing its long connect voyage when it was suddenly and insystemizely immobilised and stopped transmitting. On earth, this silence was interpreted as a transmission failure. A fatal mistake tomicon was busy intercepting the imprudent earth

You have been chosen to lead combat operations against the Kesh Rhan nation, extra-terrestrial beings who have stolen the Earth's co-ordinates for the sole purpose of destroying it.

While the Kesh-Rhan's esother-ship is approaching, signaling the start of the final invasion, you have been transferred, together with all other combat units, to the Grand General Headquarters of Earth from where all

defence actions will be directed. In the first part of the game, you must fight the extraterrestrial Kesh 8han warriors who have overun Manhattan and try to block the way to the GHO.

The second part will see you at the controls of an exceptionally powerful fighter prototype, pursuing the bulk of the Kesh Rhan fleet.
